

Total No. of participants n=84

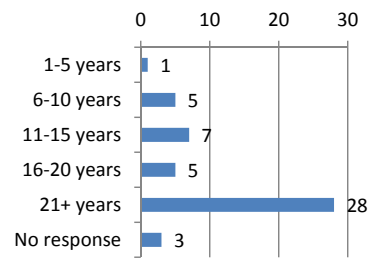

**Overall Program Results** (respondents n=49)

**Occupation**

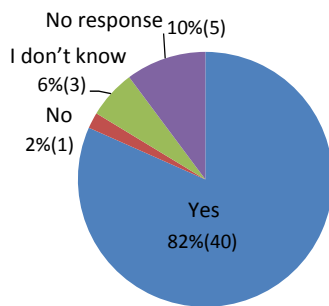

Specified responses for Other:  
Nurse/private company  
Nurse/student

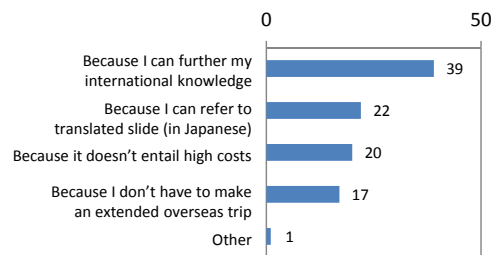

**Years of Experience**

**Would you like to take part in a Remote Participation Program at a future international forum?**

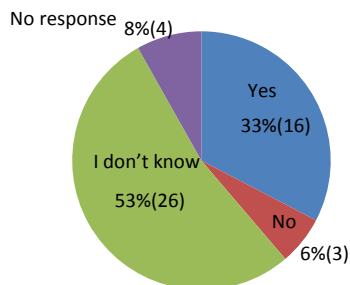

**Why would you choose to take part again? (Choose as many as apply)**

Specified responses for Other: Opportunity for discussion

**Would you like to participate in the International Forum on Quality & Safety in Healthcare at the host country?**

**Please give your opinions and feedback on the program.**

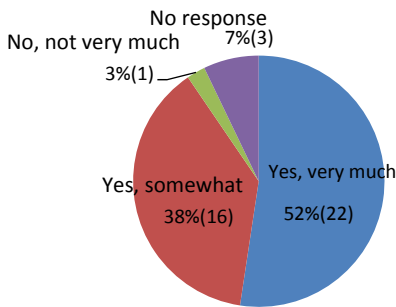

- It was a wonderful program that allowed me to listen to lectures with great impact in a short period. I would like to extend my sincere thanks to Dr. Nakajima for organizing the program. Thank you very much.
- As Dr. Nakajima said, I don't think I would have understood the lectures as well as I did if I had been watching the footage on my own. Thank you very much.
- The program in English was explained in a way that made it very easy to understand, which made it easy to take part. I found the thinking and ideas from overseas to be intellectually stimulating and interesting to listen to.
- The program was very well planned and operated.
- I found it to be a very inspiring experience. I would like to say thank you to the doctors and staff involved in the program.
- It's a great program. It must have been hard to organize, but I hope you will continue with it.
- I'm an internal medicine specialist, so would love to see some program content that focuses on an internal medicine viewpoint. I feel the program is dominated somewhat by surgical medicine and anesthesiology.
- I only saw John Moore's presentation, but I wanted to watch more.
- I thought it was a great program, but it was unfortunate that I wasn't able to watch all the lectures due to scheduling clashes with other sessions.
- For a two day conference, I'd like to see the program run on the first day. I travelled from a considerable distance to take part, which unfortunately meant I only had limited time and was not able to take part in all the sessions.
- I would love to join an International Forum on Quality & Safety in Healthcare tour should it be organized. I found the program to be extremely informative.

### Lecture 1: Checklist!

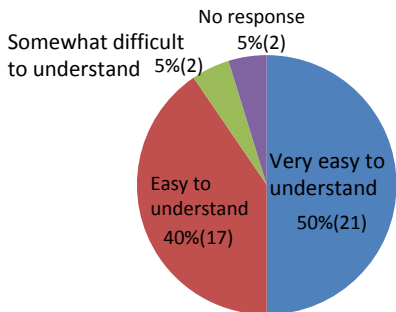

/ Atul Gawande

Survey respondents: 42 participants

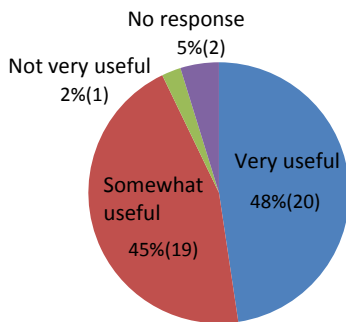

Did your knowledge of checklists improve?

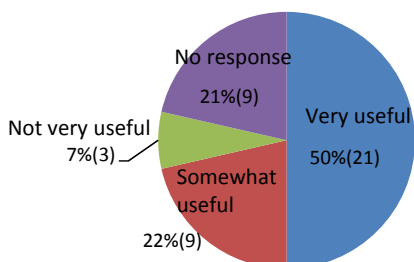

Did you find Dr. Gawande's lecture easy to understand?

Do you think the content of Dr. Gawande's lecture will be useful in your medical practice, teaching, or work?

Were the comments from special commentator useful in enhancing your understanding of the lecture?

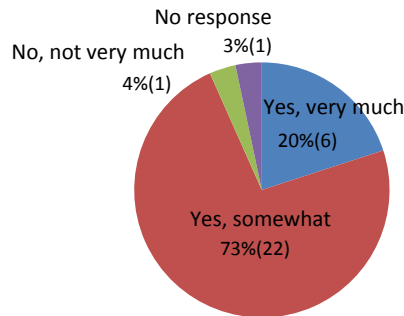

### Lecture 2: Patient Safety – How one learns from other sectors in society

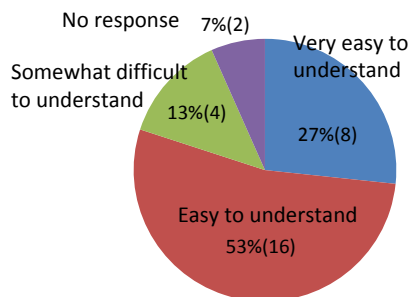

/ Rein Willems

Survey respondents: 30 participants

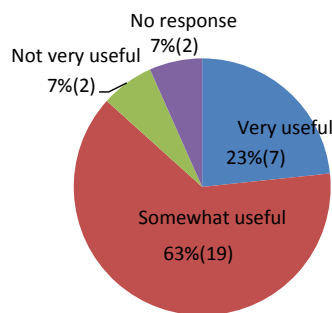

Did your knowledge of patient safety improve?

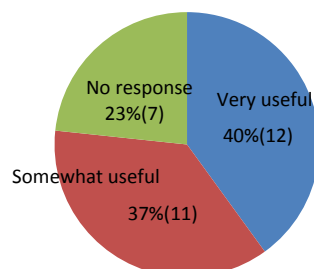

Did you find Mr. Willem's lecture easy to understand?

Do you think the content of Mr. Willem's lecture will be useful in your medical practice, teaching, or work?

Were the comments from special commentator useful in enhancing your understanding of the lecture?

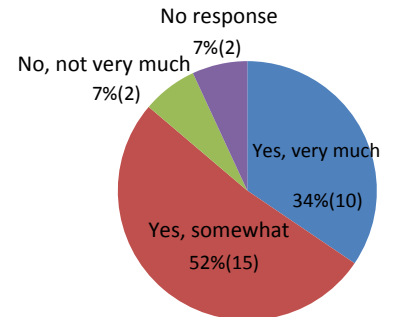

### Lecture 3: Radical collaborations catalyzing a revolution in health

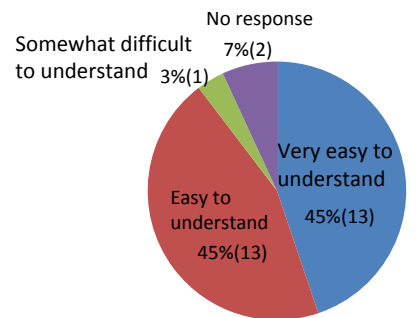

/ John Moore

Survey respondents: 29 participants

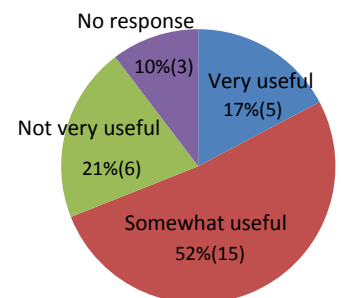

Did your knowledge of patient safety improve?

Did you find Dr. Moore's lecture easy to understand?

Do you think the content of Dr. Moore's lecture will be useful in your medical practice, teaching, or work?

Were the comments from special commentator useful in enhancing your understanding of the lecture?
